

Lake Murray Navigation Markers and Lights

Credit for this table of Lake Murray Navigation Lights goes to the Lake Murray Power Squadron. This table includes the Differential GPS Latitude and Longitude for each light. You can enter each light's location into your GPS as a way point using the Latitude and Longitude and be able to determine where you are, even if you are unable to figure out the flash sequences. Downloaded from www.LakeMurrayFun.com

Odd numbered lights (south side of lake) are green. Even numbered lights (north side of lake) are red.
